

I Pledge to Resist Attacks on Immigrants.

As a teacher or other school worker, health care worker, or provider of other social service that would be denied by Proposition 187, I pledge to uphold my professional principles and the right to privacy. I will continue to provide services to all who request them; I will refuse to verify immigration status as required by Proposition 187. I will support others who refuse to cooperate and I will urge others to do the same.
